## **FURUTECH**

## The Absolute Sound 2010 EDITOR'S CHOICE AWARDS

February 2010

Furutech Reference III and Evolution Interconnect and Cables

Reference III Interconnect, \$1320/1.2m (XLR), \$1155 (RCA); Reference III Speaker, \$1573/3m; Reference III Power, \$1210; Evolution Interconnect, \$740/1.2m (XLR), \$650 (RCA); Evolution Speaker, \$770/3m

furutech.com

Furutech uses cryogenically treated, ultra-high-purity, OCC (Ohno Continuous Casting) single-crystal copper conductors in both its mid-priced Evolution and premium-priced Reference III audio cables. The top models offer better connectors, superior dielectric materials, and passive EMI-absorption filters made from GC-303 (and EMIabsorbent material developed by 3M Company). Furutech's cables have great transparency and purity, plus an uncanny ability to block out noise, hash, and grunge. CM, 173

## Furutech LP Flattener \$1890

furutech.com

Expensive, but worth it if you have a large LP collection. Just put a slightly warped LP into the Flattener and the gentle heating and pressing action restores an LP to perfect

flatness. Review forthcoming

## Furutech deMag

\$2150

furutech.com

What's that you say, demagnetize vinyl—a plastic? Yes, it seems that the pigment added to the plastic contains small amounts of ferrous material that magnetizes vinyl LPs. A quick 20-second zap to each side of an LP results in audible improvements to noise floor, dynamic range, and perceived resolution. The same goes for optical media, including DVDs, and evidently cables and power cords, too. WG
