

## Furutech DPS-4.1 Power Cord

The Absolute Sound (USA) Review – Issue 317

By Neil Gader

***“The Furutechs added a sense of acoustic openness... they firmed up the bass and plumped up the midrange, adding gravitas to the resonances...”***

***“Its sonic effects were more globally presentational and were heard and sometimes felt throughout the system. They didn’t disrupt my system balance; rather, they removed veiling and in so doing enhanced the recovery of micro-information.”***

***“..for those who possess some DIY chops, Furutech just might have the power cord for you. All it takes is a little elbow grease, and you’ll be rewarded with a cord that performs on a par with some of the top contenders, at a considerable cost savings. Unreservedly recommended.”***
